

## SPA LAUNCHES NEW MENU

Good news - our Spa has launched a new and improved menu! We are still offering all your old favourites, as well as a new exciting range of treatments.

Our new treatments include a Chocolate Regenerative Care Facial, Cocoa Relaxing Body Treatment, the Alpine Aqua Detox Body Wrap, the Alpine Aqua Thermal Gel Body Wrap and Facial, and the Tribal Body Experience. These indulgent treatments are the perfect way to unwind and will leave you feeling incredible.

We've also improved on a classic customer favourite. The Alpine Aqua Body Experience now includes a full hour-long massage with rich body butter, to make sure you're totally relaxed and rejuvenated when it comes time to leave.

Scott Callaway, Marketing Manager of Hanmer Springs Thermal Pools and Spa, has experienced the improved treatment first hand and says he recommends it for everyone!

"It is such an enjoyable, relaxing treatment. It left me feeling totally pampered - it's a true holiday experience," he says.

The Spa is currently running at maximum capacity with 20 therapists and 27 staff all working to ensure your experience is a memorable one. Weekends are our busiest time, so please try to book two or three weeks in advance if you're planning to visit at a weekend.

We're delighted with our new range of treatments and can't wait to get your feedback once you've experienced them too!

The Spa at Hanmer Springs is a member of Best Spas of New Zealand tourism network. [www.bestspasofnewzealand.com](http://www.bestspasofnewzealand.com)
